Subject: PUD Access to CERCLA and RCRA Landfills - Lockheed Martin Site - The Dalles, Oregon

Hello Darlene,

EPA has expressed some concern regarding air quality conditions at the two Lockheed Martin landfills located at the former Northwest Aluminum Smelter location in The Dalles. We will be collecting air quality samples soon to document existing conditions. Until safe worker conditions are verified as a result of this sampling, access has been restricted to the site. Please contact this office if you have need to access your easement through the site.

Please verify and acknowledge receipt of this email and notification.

Best regards,

Mike
